Luminance HDR - <http://qtpfsgui.sourceforge.net/>

High dynamic range imaging (HDRI or HDR) is a set of methods used in imaging and photography, to allow a greater dynamic range between the lightest and darkest areas of an image than current standard digital imaging methods or photographic methods. HDR images can represent more accurately the range of intensity levels found in real scenes, from direct sunlight to faint starlight, and is often captured by way of a plurality of differently exposed pictures of the same subject matter. Luminance HDR is graphical user interface application that aims to provide a workflow for HDR imaging.
